

**INDUSTRIAL HVAC**

We Deliver the Full-Service Industrial HVAC Solutions You've Been Searching For.

Since 1993, Cherokee Millwright, Inc. (Cherokee) has been providing top-notch millwright, mechanical, and fabrication services to clients across Tennessee and Kentucky. Our company was founded to fulfill the growing need for a full-service millwright company that treats customers like family and equipment with care. At Cherokee, customer satisfaction is the top priority, and an experienced team of experts provides the highest quality service.

Industrial HVAC Service—No Matter Where Your Equipment is Located

As a full-service millwright firm, we can handle virtually every industrial service need that arises, including HVAC service, HVAC maintenance, or full-scale HVAC retrofits. Our talented industrial HVAC technicians have the right tools, instrumentation, and experience to service and repair nearly every type of industrial HVAC equipment. We also specialize in preventative maintenance and troubleshooting.

Whether your HVAC equipment is located in an industrial facility, a distribution center, or a manufacturing facility, our team of HVAC specialists can provide a comprehensive, custom, full-service HVAC solution, including:

- > Scheduled preventive maintenance
- > Diagnostics
- > Corrective maintenance/repairs
- > Renovation projects
- > Equipment upgrades

OUR FULL SUITE OF SERVICES INCLUDES:

MILLWRIGHT

- > Installing

Small Projects, Large Projects, and Virtually Anything In Between

Cherokee's team can perform routine tasks as part of a preventative maintenance program, such as changing out filters and doing visual inspections. Our HVAC team can also work on large projects such as chiller overhauls or complete HVAC system retrofits. To put it simply: our extensive suite of industrial HVAC and mechanical services are designed to meet even the most challenging need.

Innovative, Comprehensive Industrial HVAC Services— Any Time You Need Them

Our HVAC service capabilities include the service and repair of all brands of HVAC and mechanical systems equipment:

- > Chillers and boilers
- > Water heaters
- > Gas heaters and furnaces
- > VRV and VRF system controls
- > Boiler pumps
- > Chiller pumps
- > Cooling towers
- > Ventilation systems
- > Design-build
